

Immunization Locations

In order to receive immunization, students must have their immunization record and have a parent or guardian present when they receive their shots.

Where can I get my immunization record?

- Through Skyward via Family Access
- Log into your account, select the student, select health info, go to display options and then show vaccinations. You can print them out as well. This is the information that the campus nurse has on file for your child/student.

Contact your primary care doctor.

- If your doctor does not provide immunizations you may ask them for a prescription and you can take it to either HEB, CVS, or Walgreens. Always check with your insurance to see if vaccines are covered at the pharmacy.

You may also call 211 for more information about immunization clinics being held in the outlying communities.
